ABOUT US

Our Story

JaBaDaBaDo is a Swedish family-owned business started in 1993 by the spouses Eva and Calle Eliasson. Today we are located in 30 countries throughout the world.

We combine the sleekness of Scandinavian design with a fun and playful heart. All our products are designed in-house. Our wooden toys aren't filled with flashy interactive features but are classic and simple to inspire children to use their wild imagination during play.

JaBaDaBaDo was born out of unemployment. Due to the 90's-financial crisis, Eva Eliasson's job as an interior designer was terminated. She started to design and produce wooden toys and her creations soon became attractive amongst friends, family and acquaintances who all praised her work. The hobby soon became a small business and together with her husband, Calle Eliasson, they started the toys' distribution company Filuren. They were agents for a number of well-known European toy brands. However, they never let go of their dream of producing their own design toys. In 1999 the company JaBaDaBaDo was founded.

A few years later they let go of distributing other brands to only manufacture and distribute their own designed toys.

To me the word Jabadabado stands for happiness. With our products, we want to share joy among children and therefore I felt an expression for happiness is just the right name for our business". Eva Eliasson

OUR VALUES

Quality

We want to go against the throwaway trend within toys. That is why all our products are produced of carefully selected materials of the highest quality. Our wooden toys are durable and sturdy, made to last and to withstand robust play. A large part of our collection is made of natural materials such as wood and cotton. Materials that will satisfy parent's requests for quality and make the toys last for the next generation to cherish and love.

Safety

As a parent you want to be sure that your children's toys are perfectly safe. All our toys are approved, tested and CE labelled. We guarantee, for instance, that none of our products contain BPA nor do they contain PVC or phthalates. When you buy our products, you can always be certain they have been manufactured, tested and approved in accordance with prevailing safety standards of the EU.

Ethical Standards

Most of our suppliers have been with us since our very beginning, being small businesses that have grown together with us over the years. Our long history together is the foundation for mutual trust and transparency. Most of our suppliers are members of SEDEX, a global membership organization dedicated to driving improvements in ethical and responsible business practices.
