The wonderful toy

The toy: a treasured gift that will make an occasion perfect, will develop a child in its formative years and will be loved for years to come.

Both children and adults can enjoy a Jabadabado gift that is durable, well designed and with its Scandinavian style, looks great in play or on display.

With a mix of traditional values, on-trend colours and the latest findings in child development, our toys will be played with for generations to come, creating paths to a world of imagination. Our interior designs make that important connection with play and rest that help make a cosy space where children can create their own magical world.

We are humbly aware that we are part of an important period in a child's and parent's life. A time for sparking curiosity, developing playfulness, and creating shared moments with your child as well as encouraging independent play. It is this responsibility that drives us to create unique, safe, well-made products which encourage family traditions and can still find new playmates after years of intensive play.

Dream of being a vet with our veterinary bag, a jockey with our hobby horse, a mechanic with our parking garage or even a shop keeper with our ice cream shop; just some of our contributions to inspiring imagination and developing ways of playing.

Driven by the love of giving the very best to the most valuable we have, our children, we ensure their joy and playfulness are always the starting point when we design and shape our products. Through constant development and a growing range of wonderful toys and interior design, we show great care for young ones.

Thank you for being a part of our history and for letting us be part of your family.

**Love,
Jabadabado Team**

PLAY & LEARN

Puzzles

MULTI-LAYERED PUZZLES

Two wooden puzzles in different layers. Six different animals make up the puzzle pieces. The figures are shaped to fit into small hands and are easy to grab. A fun and challenging way to puzzle.

PLAY & PRETEND
